

Batteries & EV's Seminar

8-9/2/2018 – Appenzell, Switzerland

The seminar program focuses on present and future needs of portable and stationary electrochemical energy sources and highlights the latest technological developments designed to satisfy application requirements.

The program reviews primary, rechargeable systems and their accessories.

The seminar program reviews typical cycle life aspects of designing and manufacturing energy source solutions: from application energy requirements, power source electrical and mechanical design, cells selection, cells evaluation tests, battery prototype, acceptance tests, design and manufacturing techniques, testing, mass production, safety issues, transportation, use and disposal.

Special focus is given to battery design and testing aspects which are vital tools for battery solution.

The program trains attendees on safety issues along the energy source solution cycle life.

The program focuses on electric vehicle and Batteries, and Medical Batteries

Key Benefits

Batteries & Fuel Cells Seminar provides:

- Full review of current and future electrochemical energy sources.
- Training on cells selection, design, manufacturing, testing, safety, and transportation and disposal aspects of energy sources.
- Basic knowledge for new industry members entering the field.
- Expands the knowledge of industry members already working in the field.
- Training on Energy Sources Database software – a vital tool for optimal energy source design.
-

Seminar Program Topics

- Battery characteristics
- Primary cells & batteries
- Rechargeable cells & batteries
- Lithium rechargeable cell Manufacturing process
- Battery chargers
- Small size/Micro Batteries
- Medical Batteries
- Implantable Batteries
- Military batteries
- Battery design process
- Battery safety
- Battery disposal
- The "smart battery"
- Battery testing systems
- The E-Mobility revolution
- xEV's Batteries
- xEV's battery swap
- xEV's Charging infrastructure

Seminar Schedule

8-9/2/2018

Seminar Location

Wyon AG
Saeghueslistrasse 15, CH-9050
Appenzell Steinegg

Local Partner

Mr. Raphael Mock
e-mail: raphael.mock@wyon.ch
Tel: +41 71 577 45 85
Website: www.wyon.ch

Who Should Attend?

- Battery and energy sources users
- Medical batteries customers
- Pack assemblers
- Cell makers
- Energy sources suppliers
- Academic researchers
- R&D engineers
- Market researchers
- Safety supervisors
- Battery shippers and disposals
- E-Mobility industry members
- Others industry members

About Shmuel De-Leon

Shmuel De-Leon is Founder and CEO of Shmuel De-Leon Energy, Ltd.

Shmuel is a leading international expert in the business of Power Sources, Energy storage and Ev's.

Prior to founding the company, Shmuel held for over 20 years various positions as a power sources, engineering and quality control team manager.

Shmuel holds BSc. in mechanical engineering from Tel-Aviv University and MBA in quality control and reliability engineering from the Technion Institute in Haifa as well as an Electronic Technician's diploma.

Shmuel De-Leon Energy Ltd. provides unique tools for the energy sources industry, such as Consulting, Training, Conference organizer, Market research reports Market research reports Energy Sources Database, Market research reports , Energy Sources Solutions, Industry News weekly newsletter.

Seminar Pricing

	Commercial	Academic *
<u>Early Registration Discount until 8/1/2018.....</u>	€ 800 + VAT	€ 400 + VAT
<u>Registration from 9/1/2018.....</u>	€ 880 + VAT	€ 440 + VAT

* Copy of an Academic Institute ID is required

** 10% discount for 3+ group attendees

*** Pricing includes hard copy print out of all seminar presentations, lunch & refreshments

Sponsor & Exhibit Opportunities

Exhibitor and Sponsor will receive:

- 1 roll-up display at the seminar room
- Advertisement materials on a side table in the seminar room
- Logo in the seminar program, agenda and seminar web site
- Extra 10% discount on attending the seminar

Pricing: € 400 + VAT

Seminar Schedule & Agenda	
Thursday, 8/2/ 2018	
08:00 – 08:30 Registration	
08:30 – 09:30 Module 1: Battery Characteristics This session introduces a historical prospective of batteries, detailed battery definitions and features (electrical, mechanical, standards, etc.). Module 1 lays the foundation for the attendants to share a common “battery language” and provides all the background needed for upcoming modules.	
09:30 – 10:30 Module 2: Primary cells & Batteries This session reviews and compares primary battery chemistries (Alkaline Manganese Dioxide, Zinc Carbon, Zinc Chloride, Silver Zinc, Nickel Oxyhydroxide, Lithium Iron Disulfide, Lithium Iodine, Lithium Manganese Dioxide, Lithium Carbon Monofluoride, Lithium Sulfur Dioxide, Lithium Thionyl Chloride, Lithium Sulfuryl Chloride, Lithium Bromine Chloride and High Power Organic Lithium).	
10:30 – 10:45 Coffee Break	
10:45 – 12:15 Module 3: Rechargeable cells & batteries This session reviews and compares rechargeable batteries chemistries (Nickel Cadmium, Nickel Metal Hydride, Rechargeable Alkaline, Lithium Ion and Lithium Polymer).	
12:15 – 12:35 Module 4: Lithium Rechargeable Cells Manufacturing Process This session reviews manufacturing process techniques for conventional and pouch cells.	
12:35 – 13:00 Module 5: Chargers This session reviews battery chargers, charging techniques per battery chemistry, charging problems and solutions, personal chargers, industrial chargers and charger types by charging time.	
13:00 – 14:00 Lunch Break	
14:00 – 14:30 Module 6: Small size/Micro Batteries (Presented by Wyon) This session reviews and compares Small size/ Micro Rechargeable Batteries.	
14:30 – 15:00 Module 8: Military Batteries This session reviews and compares Military batteries & Chargers (Primary, Rechargeable Batteries).	
15:00 – 15:15 Coffee Break	
15:15 – 16:30 Module 9: Battery Design Process & Optimization This session introduces battery design processes (cell and raw materials selection, cell level testing, battery design documents, battery electrical, mechanical and safety design and final verification tests (electrical, mechanical, safety).	
Friday, 9/2/2018	
08:30 – 10:00 Module 10: Battery Safety This session introduces the safety risks along the battery cycle life and provides safety guidelines for safety event elimination. Module 8 also addresses the procedures involved in handling safety events, including first aid.	
10:00 – 10:30 Module 11: Battery Disposal This session introduces battery disposal requirements and updates disposal status in Europe and the US.	
10:30 – 10:45 Coffee Break	
10:45 – 11:15 Module 12: The "Smart Batteries" This session introduces the “Smart Battery” technology, including single wire and smart battery communications bus and its advantages.	
11:15 – 12:00 Module 13: Battery testing systems This session introduces battery testing techniques, available systems and their features.	
12:00 – 13:00 Lunch Break	

13:00 – 15:00 Module 16: EV Energy Solutions

This session introduces EVs driving range problem and energy solutions.

- The new electric automotive revolution
- EV Batteries
- EV Battery SWAP
- EV Charging infrastructure

15:00-16:00 Wyon battery factory tour

**Pre-Registration Form - Energy Storage Seminar
8-9/2/2018**

Contact Details (*Required)

Tel: +41 71 577 45 85
Website: www.wyon.ch

* Remarks:

- Cancellation of registration must be made in writing only.
- In case that the seminar will have to be cancelled due to force majeure, due to speaker's preventions or due to lack of participants, the participants will be informed accordingly no later than 7 days before the event. The event fee will be refunded in this case.
- In case of cancellation of the seminar up to 7 days before the event, a claim for compensation for travel or accommodation costs is excluded.
