Key to markets

Messe Stuttgart

**BATTERY+
STORAGE**

International trade fair for battery
and energy storage technologies

30 September - 2 October 2013
Messe Stuttgart, Germany

Are you a researcher, developer, manufacturer or user of solutions in the area of battery and energy storage technologies? If so, BATTERY+STORAGE is just what you are looking for.

BATTERY+STORAGE is the first overarching trade fair and conference for mobile and stationary storage manufacturing industry. It portrays the entire value-added chain and brings together developers, manufacturers and users of new and alternative storage solutions.

Find out about market-ready products and applications, innovative manufacturing processes and new, promising approaches from Research and Development. Immerse yourself in the world of battery and energy storage technologies.

**PART OF
WORLD OF
ENERGY
SOLUTIONS**

f-cell – the trade fair

f-cell examines the current developments in stationary, mobile and special markets for fuel cells and addresses the production and storage of hydrogen.

Future Mobility Solutions

The e-mobil BW TECHNOLOGIETAG is a stimulating industry meeting place for experts and decision-makers from industry, science and public authorities.

WORLD OF ENERGY SOLUTIONS – the conference

In over 140 presentations German and international experts will report about current developments in hydrogen and fuel cells, battery and energy storage technology, as well as about the latest solutions in the area of mobility.

Register Now!

Register now for the
**BATTERY+STORAGE trade fair
and the WORLD OF ENERGY
SOLUTIONS conference**

We expect:

- 200 exhibitors
