**Roskill**

**Lithium Mine to Market  
Australia 2019**

21st – 22nd February 2019  
Parmelia Hilton Perth Hotel  
Perth, Australia

Roskill's inaugural [Lithium Mine to Market, Australia 2019 Conference](#) (21-22/2/2019) offers you the opportunity to discover what is really happening in the lithium supply chain. The conference will bring together a high-profile list of expert speakers to offer insights and supply and market outlooks for the current situation in Australia and further afield. It will also give you the chance to meet and network with key decision makers across the entire lithium supply chain.

## 10th Int'l Rechargeable Battery Expo **BATTERY JAPAN**

[Battery Japan 2019](#) - Feb 27- Mar 1/ 2019 World's Largest-scale Show for Rechargeable Battery - Big Site TokyoWorld's Largest-scale international exhibition showcasing various components, materials, devices, finished rechargeable batteries for rechargeable battery R&D and manufacturing.

---

March 11-14, 2019 - Sponsorship and Exhibitor Opportunities [The 2019 Annual Meeting](#) will be the 10th annual conference of NAATBatt International, the trade association of companies developing, manufacturing, selling and using advanced battery technologies in North America.

[Workshop "Second life of batteries : technical challenges and quality assessment" Monday 11 march 2019](#)

Although battery re-use in stationary applications offer obvious environmental and economic opportunities, whether end-of-life EV batteries should be recycled or re-used is still hotly debated. The workshop offers discussions on how to extend battery's lifetime economically. Three topics are covered:

- battery quality estimation,
- battery quality standards,

- second life batteries experiences.

It is held the day before the ESE/IRES expo.

Join NY-BEST for their 9<sup>th</sup> Annual Conference & Meeting, Capture the Energy, on March 13-14, 2019 in downtown Albany, NY! NY-BEST is anticipating over 350 attendees this year. The [agenda](#) for this year will address how NY will reach its energy storage deployment goal of 1500 MW by 2025 and 3 GW by 2030. Find out more [here](#).

INTERBAT 2019 - INDEPENDABLE POWER SOURCES - The 28th International Specialized Fair on Batteries, Equipment and Components for its Production. 19 -21 March, 2019, Russia, Moscow, Exhibition Hall of Moscow Government, Noviy Arbat street, 36/9

Subject: All kinds of batteries - Material, components and equipment for battery production - Battery recycling. More information:

Founded in 1983, [the International Battery Seminar & Exhibit](#) has established itself as the premier event showcasing the state of the art of

worldwide energy storage technology developments for consumer, automotive, military, and industrial applications. Key thought leaders will assemble to not only provide broad perspectives, but also informed insights into significant advances in materials, product development, manufacturing, and application for all battery systems and enabling technologies. As the longest-running annual battery industry event in the world, this meeting has always been the preferred venue to announce significant developments, new products, and showcase the most advanced battery technology. For example, Sony chose the International Battery Seminar as the platform to first announce its lithium-ion technology in 1991, an accomplishment that has since gone on to change the world. Attendance has more than doubled since joining Cambridge EnerTech in 2015!

## **E-Mobility Charging Infrastructure in Europe 2020**

9-11 April 2019 | Hotel Mövenpick Berlin, Germany, Cross border charging solutions for a connected Europe: Learn about interoperability, industry e-mobility collaborations and different charging interfaces. Also the conference will allow facilitated discussions on 800V and charging solutions for cities and highways with innovative charging interfaces, from DC to AC and how can the grid support the peaked electricity demand for urban EV growth.

## 8th Annual International Conference Thermal Management for EV/HEV

9-11 April 2019 | Hotel Mövenpick Berlin, Germany, Listen about aspects of thermal management of next generation battery technologies, such as solid state batteries and learn about thermal management of HEV and how to deal with system complexity caused by combining the ICE and the electric engine. Hear about European Commission's vision of EV/HEV market evolution and the regulatory tools to stimulate it and discuss about thermal management aspects in the context of ultra fast charging, such as new battery cooling technologies and managing cabin temperature during charging.

In order to meet the high demand, [the Battery Experts Forum](#) moves to the financial capital Frankfurt am Main in 2019. With an even larger exhibition area, the Battery Expert Forum could take place in the rooms of the Forums Messe Frankfurt. Be there when over 100 TOP experts in the battery industry report on the latest technology!

4th Lithium Battery International Summit (LBIS) Invitation, Shenzhen,

China May 6th-9th, 2019

This summit will bring together world's leaders of energy storage science & technology (Y. Nish, A. Yoshino, J. Dahn, T. Ohzuku, JM. Tarascon, M. Yoshiyo, S. Visco, SAE, IEEE, USABC, Various EDV, CE and ESS makers), as well as the CTOs and CEOs of top 20 Li-ion producers to discuss Li-ion, Solid State Batteries, Li/Air, Li/S, Fuel Cell) and their applications.

Summit Special Lectures by: J. Dahn, J. Zhang, T. Ohzuku/M. Yoshio, JM. Tarascon, S. Visco,

## THE BATTERY SHOW

### EUROPE 2019

The Battery Show, co-located with [Electric & Hybrid Vehicle Technology Expo](#), is the industry's largest and fastest-growing trade fair for advanced battery and H/EV technology (7 - 9 May 2019, Stuttgart, Germany). 400+ suppliers from across the battery supply chain, such as A123 Systems, Leclanché, Voltabox and Bosch Rexroth will display thousands of design, production and manufacturing solutions, including battery management systems, battery pack assemblers/integrators, materials, components, research, testing and recycling. This free trade fair is an opportunity to source the latest energy storage solutions to reduce costs and improve the performance of battery applications.

---

EVS 32 (International Electric Vehicle Symposium) are organized by the WEVA (World Electric Vehicle Association) and recognized as the major event by professionals around the world, engaged in electric transportation, coming from the industrial world, institutional and

university research program to present, or to explore, the new paradigm of the electric transport with its technologies and its new mobility concepts.

---

Show your products and services to the South American Lead-Acid Battery manufacturers and recyclers. Composed of a two mornings Conference and two afternoons-evenings Expo, an expected 800+ attendees and close to 100 Exhibiting companies make the [FENIBAT](#) the biggest battery event in Southern Hemisphere. Suppliers must have a booth to be admitted.
