

## Battery safety training - virtual

## Don't wait for battery safety event to happens - Be prepared in advance

Shmuel De-Leon Energy provide its lithium battery safety 1/2 day virtual training for companies nOrganization and individuals.

Batteries become every day product on many devices and applications.

Unfortunately we face daily safety events with injures and severe damages On some cases the damage is huge and companies cant financially recover from that event.

The training based on Shmuel De-Leon and other experience on battery safety for over 30 years of work in the field.

The motivation behind the training is to provide training attendants with the knowledge needed to handle safely the batteries in their organization and to support reduction in safety events.

The training program focuses on portable and stationary battery safety along battery cycle life (acceptance, testing, assembly, use, transportation and disposal).

Training program includes:

**Battery Essentials** 

Primary cells and battery packs

Rechargeable cells and battery packs

Battery safety hazards

Battery safety Guidelines

Battery safety equipment check list

Battery pack safety design

Battery safety disposal

EV and Grid Storage battery safety

\* There is an option for a shorter 2 hours battery safety training - Contact us for an advicen:

Shmuel De-Leon is Founder and CEO of Shmuel De-Leon Energy, Ltd.

Shmuel is a leading international expert in the business of batteries. Prior to founding the company, Shmuel held for over 20 years various positions as a battery, engineering and quality control team manager. Shmuel holds BSc. in mechanical engineering from Tel-Aviv University and MBA in quality control and reliability engineering from the Technion Institute in Haifa as well as an Electronic Technician's diploma.
